

## Doug Fir Gutter Profile

Most Gutter measures 4" x 5"

Fir Gutter is a green product, not Kiln Dried.

Gutter is shipped in a number of patterns. Grade descriptions are based on a 4" x 5" - 20'. The number of characteristics in larger or smaller pieces may vary in proportion to the size of the piece.

There is only one grade of Gutter: "GUTTER."

In addition to the following specific provisions applicable to Gutter, the appropriate provisions in all other paragraphs of the grading rules apply.

### 12-a. "GUTTER."

Pieces of this grade are of sound wood and are watertight. Pieces are clear or have only a few minor and unimportant characteristics such as:  
 Medium stained sapwood.  
 Medium seasoning checks.  
 Heavy torn or raised grain.  
 Medium pitch streaks.  
 Very light skips. Light warp.  
 Three 1" sound tight knots or their equivalent. Four medium pockets or their equivalent.
